

# A-RHKC 25-2D/1

## Metro Saloon HVAC unit

---

This project involved a combination of manufacturing additional new spare units and re-manufacturing existing units all designed and built by Noske Kaeser Rail & Vehicle New Zealand, introducing new technology to improve reliability and capacity control.

# Technical data

## A-RHKC 25-2D/1 Metro Saloon HVAC unit

<b>Customer   Platform</b>	KiwiRail   ADL/ADC
<b>City of operation</b>	Auckland, New Zealand
<b>Cooling capacity</b>	25,0 kW
<b>Heating capacity</b>	12,0 kW
<b>Air Flow</b>	4176 m <sup>3</sup> /h
<b>Length   Width   Height</b>	2555 mm   2150 mm   510 mm
<b>Weight</b>	650 kg
<b>Power supply</b>	415 Vac 50 Hz
<b>Summer conditions</b> - outside	38 °C
<b>Winter conditions</b> - outside	0 °C
